Boys'	Volleyball
Dear Parent or Guardian:	
athletic, or clinic. Each student and his can Agreement to Participate each year before	in a Palos 118 interscholastic sport, intramural or her parent/guardian must read and sign the being allowed to participate. The completed a prior to tryout or first day of participation. be provided.
(within 395 days of tryouts) on file with the prior to the first scheduled try-out date in 6 096-0128 requires the use of the attached for well as the District 118 and Palos South webs	aust have a current school or athletic physical form a school nurse. All physicals must be completed order for any student to participate. Public Act m and is available in the office at Palos South as sites. All completed forms remain on file with the from your personal physician, Minute Clinics (5-598-2441) for a nominal fee.
X Yes, this is an interscholastic sport re	equiring a physical and accident insurance.
No, this is not an interscholastic spor accident insurance.	t, therefore not requiring a physical or
Tryouts will be held on: Thursday, October	7 th Time: 2:45-5:00
Please be advised that tryouts are closed to are final. Coaches of the athletic teams will should make arrangements for their children to	the public and all decisions by the coaching staff issue a schedule of practices and games. Parents get home safely.
If you have any questions, please do not hesita	te to call.
Sincerely,	
Mr.Wrzesinki Principal	Mr. Buvala Athletic Director

*Permission forms are due no later than Friday, October 1st. 6th/7th Grade forms go to Mrs. Rudolph in Room 201. 8th Grade forms go to Mr. Duggan in the Gym.

S	STUDENT NAME (print clearly): GRADE:
	STUDENT AGREEMENT TO PARTICIPATE TO BE READ AND SIGNED BY THE <u>STUDENT</u>
1.	. I wish to participate in the interscholastic sport(s)/intramural/clinic:
2.	. I agree to abide by all conduct rules and will behave in a sportsmanlike manner. I agree to follow the coach instructions, playing techniques, and training schedule as well as all safety rules.
3.	. I understand that Board policy 7:305, Student Athlete Concussions and Head Injuries, requires, among other things, t a student athlete who exhibits signs and symptoms, or behaviors consistent with a concussion or head injury must removed from participation or competition at that time and that such student will not be allowed to return to play unle cleared to do so by a physician licensed to practice medicine in all its branches or a certified athletic trainer.
4.	I am aware that with participation in sports comes the risk of injury, and I understand that the degree of danger a seriousness of risk vary significantly from one sport to another with contact sports carrying the highest risk. I am aware that participating in sports involves travel with the team. I acknowledge and accept the risks inherent in the sport(s) athletics in which I will be participating and in all travel involved. I agree to hold the district, its employees, agent coaches, school board members, and volunteers harmless from any and all liability, actions, claims, or demands of a kind and nature whatsoever that may arise by or in connection with my participating in the school-sponsor interscholastic sport(s) or intramural athletics. The terms hereof shall serve as a release and assumption of risk for reheirs, estate, executor, administrator, assignees, and for all members of my family.
St	tudent signature Date
	PARENT PERMISSION TO HAVE THEIR CHILD PARTICIPATE IN INTERSCHOLASTIC SPORT(S), INTRAMURAL ATHLETICS OR SPORTS CLINC
	TO BE READ AND SIGNED BY THE PARENT/GUARDIAN
1.	I am the parent/guardian of the above named student and give my permission for my child or ward to participate in c sports, interscholastic sport(s), or intramural athletics indicated. I have read the above <i>Agreement to Participate</i> an understand its terms.
2.	I acknowledge having received and read the attached Concussion Information Sheet.
3.	I understand that all sports can involve many risks of injury , and I understand that the degree of danger and seriousne of risk vary significantly from one sport to another with contact sports carrying the higher risk. I am aware the participating in sports involves travel with the team. In consideration of the school district permitting my child participate, I agree to hold the district, its employees, agents, coaches, school board members and volunteers harmles from any and all liability, actions, claims or demands of any kind and nature whatsoever that may arise by or connection with the participation of my child in the sport(s) or athletics. I assume all responsibility and certify that me child is in good physical health and is capable of participation in the above indicated sport or athletics.
4.	If participating in interscholastic sports: Before your child will be allowed to participate, I must provide the school district with a certificate of physical fitness (if participating in interscholastic sport(s), the pre-participation physical examination form serves this purpose), show proof of accident insurance coverage, and complete any forms require by Palos 118 and the Illinois High School Association (IHSA).

Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a "ding" or a bump on the head can be serious. You can't see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

- Headaches
- "Pressure in head"
- Nausea or vomiting
- Neck pain
- Balance problems or dizziness
- Blurred, double, or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish or slowed down
- Feeling foggy or groggy
- Drowsiness
- Change in sleep patterns

- Amnesia
- "Don't feel right"
- Fatigue or low energy
- Sadness
- Nervousness or anxiety
- Irritability
- More emotional
- Confusion
- Concentration or memory problems (forgetting game plays)
- Repeating the same question/comment

Signs observed by teammates, parents and coaches include:

- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgets plays
- Is unsure of game, score, or opponent
- Moves clumsily or displays incoordination
- Answers questions slowly
- Slurred speech
- Shows behavior or personality changes
- Can't recall events prior to hit
- Can't recall events after hit
- Seizures or convulsions
- Any change in typical behavior or personality
- Loses consciousness

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often fail to report symptoms of injuries. Concussions are no different. As a result, education of administrators, coaches, parents and students is the key to student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly

symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. IHSA policy requires athletes to provide their school with written clearance from either a physician licensed to practice medicine in all its branches or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches prior to returning to play or practice following a concussion or after being removed from an interscholastic contest due to a possible head injury or concussion and not cleared to return to that same contest. In accordance with state law, all IHSA member schools are required to follow this policy.

You should also inform your child's coach if you think that your child may have a concussion. Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

For current and up-to-date information on concussions you can go to: http://www.cdc.gov/ConcussionInYouthSports/

Adapted by the Illinois High School Association from the CDC and the 3rd International Conference on Concussion in Sport, Document created 7/1/2011.

To	be completed by athlete or parent prior to examination.
